dise at the right prices. Today we received  
some new silks in stripes and solid colors and  
also some beautiful new shades of Crepe de  
Chene.

## REV. NEAL AWAKENS KEEN INTEREST AT REVIVAL

Services at Polk Street Methodist  
Announced Up Until Sunday  
Night

Lured with a message of today,  
Rev. F. M. Neal awakened keener  
interest last night at the Polk  
street Methodist church when he  
discussed "Tomorrow" in the  
presence of a most excellent attend-  
ance.

At no meeting has the interest  
been more intense or the fellowship  
more enjoyable. The spirit of  
brotherly love was amply evidenced  
from the time of first arrivals until  
some minutes after the benediction  
when the staves were filled with  
those desiring to spread more freely  
the glad news of fellowship.

Announcement was made that the  
meetings will continue during the  
week ending last night Sunday night,  
including the Saturday hours, fore-  
noon and evening instead of recess-  
ing for the last day of the week, as  
usual.

The evangelist urged a general  
attendance, and particularly that of  
the parents with their children, Sat-  
urday forenoon at which time he  
will talk during the hour's service  
on the subject "Religion and the  
Home."

Mr. Walker will talk this fore-  
noon and will doubtless develop the  
same interest formerly character-  
izing his work during this series of  
meetings.

The musical programs are quite  
attractive and lend a feature worth-  
while to each of the services. Everyone  
is urged to be present and enjoy the  
fruits offered twice daily.

## DR. CARRICK OF DALLAS WINS NATIONAL FAME

"The Man Who Cleaned Up Texas"  
Is Title Given to Man Promi-  
nent in Sanitation

The September number of the  
Ladies Home Journal carries a page  
and a half article from the pen of  
Elizabeth Stone about "The Man  
Who Cleaned Up Texas." Dr. Man-  
teu M. Carrick of Dallas is the man  
and the work is done all over Tex-  
as. The remarkable campaign con-  
ducted in Texas by Dr. Carrick has  
won for him and Texas a world-wide  
name. Great journals of the nation  
have devoted many pages of valuable  
space telling of the man and his won-  
derful work for the cleaning up of  
the state. The people of Temple,  
through his recent visits here in the  
interest of a cleaner city, know Dr.  
Carrick and love him for his broad  
generosity and masterful intellect. He  
put this city on the road to cleanli-  
ness and better sanitary conditions  
and the people of Temple love him  
for that. As so many he is regarded  
as Texas' greatest citizen. His  
war for humanity has been without  
struggle and he has labored early  
and late for his town, so matters how  
small and mean, which evidence a  
tendency to rid himself of Fifth Avenue  
has not spoiled Dr. Carrick. He is  
the same man, easy to approach,  
that he was two years ago. It is  
such men as Dr. Carrick who make  
the world living and Texas could  
well afford to have more citizens  
like him. Long may he live. Tem-  
ple Mirror.

REPRESENTATIVES FROM  
LUBBOCK LIKE COURSE

O. E. Buchanan, D. M. Davis and  
Judge W. E. Crump are among those  
from near Lubbock, the home of the  
solan grass, who are attending the  
Farmers' Short Course here this  
week and boosting for the crop that  
has made Lubbock famous. Mr.  
Buchanan stated to the News that  
he had attended the Farmers' Insti-  
tute at College Station but that he  
found the Panhandle Farmers' Insti-  
tute much more valuable to Panhan-  
dle farmers as the addresses are all  
applicable to our needs. He ex-  
pressed himself very well pleased  
with the subjects included in the  
program and the ability of the speak-  
ers to handle profitably the various  
subjects to which they are assist-  
ed.

Mr. Buchanan is himself a suc-  
cessful young farmer and is al-  
ways looking out for anything that  
will bring about greater production  
of less cost—just the thing that  
every up to date successful farmer is  
trying to do.

ARRESTED AT GROOM  
ON BURGLARY CHARGE

A stranger, giving his name as  
James Armstrong and his home as  
Erick, Okla., was arrested at Groom  
Thursday morning and brought to  
Amarillo on a charge of burglary.  
The alleged offense was committed  
at the McIntosh Hotel in this city  
on Wednesday night.

A trunk was broken into and a  
suit of clothes, two shirts and a pair  
of shoes were taken. Armstrong  
was arrested by the constable at  
Groom and the missing articles of  
clothing recovered. It was stated  
that he had the suit and shoes on  
when arrested. He will be held in  
the Potter County jail awaiting the  
return of the next term of district  
court.

FORMER CITIZEN HAS  
RETURNED TO AMARILLO

C. W. Ward, who was formerly  
head bricklayer for J. D. Singleton  
and who left Amarillo about two  
years ago, has returned here and ac-  
cepted his old position again. Mr.  
Ward is only one of many former  
Amarillians who have returned here  
during the past few months. He has  
been located in East Texas and has  
earned the difference in spending a  
summer in Amarillo and down in  
that low southern climate.

All reside in Amarillo.

Mrs. Tom Maddox came up from  
Canyon this morning to join her hus-  
band and they will make their fu-  
ture home in Amarillo. Mrs. Mad-  
dox had remained in Canyon since  
their recent marriage.

## INCREASED ATTENDANCE AT FARMERS' INSTITUTE

Every Lecturer Is Present—Visitors  
Are Taken For Auto Ride  
In Country

The second day of the Panhandle  
Farmers' Institute and Short Course  
was even more successful than the  
opening, many more farmers having  
come in later from neighboring out-  
side counties.

A delegation of six arrived Wed-  
nesday afternoon from the town of  
Hodges in LeFlore county. These  
were joined by a number of others  
from that place yesterday. Canyon  
also sent up quite a number of new  
recruits yesterday, as did several  
other communities in different parts  
of the Panhandle.

There was a considerable increase  
in the size of the audience that heard  
the various lectures throughout the  
day.

One thing that has been especial-  
ly pleasing to the program commit-  
tee is the fact that every lecturer on  
the program up to this time has  
been on hand ready to deliver the  
goods when his name was called.

A number of prominent men, spe-  
cialists in their line, have been in  
attendance during the institute and  
many of these the farmers would  
be glad to hear. But not a vacancy  
has occurred up to this time on the  
entire program.

However, arrangements have been  
made to hear a few of these men for  
short addresses. Dr. C. A. Hazard,  
who was on the program Thursday  
afternoon on an important subject,  
divided time with Prof. C. M. Evans,  
of the A. and M. College, that the  
latter might have an opportunity to  
answer some questions that were  
asked at the dairy demonstration on  
the previous day, and make a general  
talk on diseases along that line.

J. F. Ross, superintendent of the  
government experiment farm at  
Amarillo, also divided time with Dr.  
E. Rothgeb, of Amarillo, who is a  
specialist on the seed of the sor-  
ghums.

At the morning session J. L. Pope  
of Amarillo, president, and the first  
address was given by C. C. French  
of the Fort Worth Stock Yards, on  
the subject "The Hog as a Revenue  
Producer."

Mr. French regretted that there  
were not more boys present to profit  
by what he had to say. He is a  
strong believer in the importance  
of interesting the boys in the "baby  
beef" and hog clubs and of teaching  
them something about a balanced ra-  
tion for stock.

P. K. Hinton, the alfalfa expert  
from Rocky Ford, Colo., spoke on  
"Alfalfa Production on the Plains."

Mr. Hinton stated that alfalfa is not  
a typical drought resisting plant and  
that its failure has been largely due  
to having too many plants for the  
amount of moisture available. Where  
the amount of moisture is less, the  
amount of seed sown should be  
reduced. He made a valuable  
lecture covering such points as how  
to seed your ground, how to handle  
and preserve your moisture for the  
crop and many other things of in-  
terest to the alfalfa farmer.

S. W. Black, president of the Pan-  
handle State School of Agriculture,  
at Goodwell, Okla., spoke on  
"Growing Alfalfa in Rows." He went  
into the subject in detail giving his  
experience, and touching on prepa-  
ration of soil, manner of seeding  
and other features.

He advised against attempting  
row alfalfa in large acreage without  
care. Start with five acres. If suc-  
cessful try more. Twenty or thirty  
acres is a big crop.

The closing number on the morn-  
ing program was the visiting demon-  
stration of best cattle which was  
given on the street at 11:30 by Prof.  
C. M. Evans, of the A. and M. Col-  
lege.

The Panhandle can produce  
much more beef," said Mr. Evans,  
"and still raise dairy cows that will  
furnish a cash crop. A few cows will  
put the farmer on a cash basis,  
bringing him a weekly or monthly  
cash income."

In the afternoon the first period  
was divided between Dr. C. A. Haz-  
ard, of Amarillo, and Prof. C. M.  
Evans, of the A. & M. College, on  
a discussion of "Common Animal  
Diseases—Their Prevention and  
Cure." The discussions brought out  
many points of interest and value  
to the farmer and stockman.

One of the talks that all were  
eager to hear was that of E. H.  
Ormes, of White Deer, who raised  
more than 41 bushels of wheat per  
acre this year. His subject was  
"Summer Tillage for Wheat." Mr.  
Ormes related in detail the method  
by which he had produced, perhaps  
the largest yield of wheat in the  
entire Panhandle.

He begins his summer tillage as  
soon as the weeds appear. Weeds  
require moisture and they must be  
kept down if the moisture is properly  
conserved. He uses a four horse  
double tandem disc, always double  
discing.

He gave careful figures as to the  
amount and cost of the work done  
that the farmer might be able to fig-  
ure out more closely the value of  
his methods.

J. F. Ross, of Amarillo, gave a  
short talk on "Producing Wheat  
Every Year—Best Methods." He ur-  
ged that the farmer should not per-  
sist in raising wheat every year on  
the same land.

Not more than one-fourth of the  
amount of your land in cultivation  
should be sown to wheat. At least  
half should be given to the sor-  
ghums. Mr. Ross gave the results of  
some of his experiments with wheat  
and made a very conservative talk,  
by which every farmer who heard  
it should profit.

Mr. Rothgeb, of Amarillo, who is  
also connected with the government  
experiment farm, spoke on "Pro-  
duction of Pure Seed." Much of  
his address was devoted to the vari-  
ous ends of kaffir or sorghums, their  
distinguishing points and other  
things that would assist the farmer  
in his seed selection under any given  
condition.

Carl Williams, editor of the Okla-  
homa Farmer Stockman, discussed  
"Farm Organization and Co-opera-  
tion."

He discussed cream buying asso-  
ciations, cooperative breeding asso-  
ciations, loans, farmers' banks, and  
many other things in which the

farmers can combine for mutual pro-  
tection and profit.

At the close of his lecture about  
100 members of the institute were  
taken for an automobile ride to the  
country. They visited the govern-  
ment experiment farm, two miles  
east of the city, where they spent  
some time investigating the experi-  
mental work in progress there.

They also visited and inspected  
the county farm, three miles west of  
Amarillo, where Mrs. D. D. Pollard  
acted as hostess and the entire party  
was treated to a feast of home grown  
melons.

Following is the program for this  
the closing day of the institute:

Friday, August 28—10 to 12 a. m.,  
W. L. Boys, chairman, Amarillo,  
Texas.

Conservation of Soil Moisture—  
Chas. E. Hoke, U. S. Department of  
Agriculture, Bureau of Farm Man-  
agement, Oklahoma City, Okla.

(Question and Discussion)  
Profitable Poultry Raising from  
the Farmers' Standpoint—J. L.  
Johnson, Assistant Agricultural  
Demonstrator, Santa Fe Station,  
Amarillo.

(Question and Discussion)  
Breeding of Farm Animals—H. M.  
Cottrell.

(Question and Discussion)  
Judging Demonstration (Horses  
and Mules) on Street—J. M. Evans.

Friday Afternoon, 2 to 4:30  
J. F. Ross, chairman, Amarillo,  
Texas.

Good Seeds by Breeding and Se-  
lection—Geo. Bishop.

(Question and Discussion)  
The Silo—Its Construction and  
Benefits—S. M. Baiser, Agricultural  
Demonstrator Santa Fe System,  
Amarillo, Texas.

(Question and Discussion)  
Insects Common to the Plains—  
Their Control—J. W. Neill, Texas  
Department of Agriculture, Austin,  
Texas.

(Question and Discussion)  
Business Session and Adjourn-  
ment.

## Personals

Judge W. H. Bullock and family  
of Decatur, who have been visiting  
the family of Captain W. A. Miller  
and family, left yesterday at noon for  
Denver, Colo.

Miss Mahel and Ruth Simpson of  
Wichita Falls, who have been visit-  
ing with Captain W. A. Miller and  
family, left for home yesterday  
morning. They have recently been  
enjoying a vacation at Cloudcroft,  
N. M.

Miss Margaret Mock of Scotland,  
who is the guest of her aunt, Mrs.  
J. S. Abel, of 819 Monroe street, left  
for Plainview Thursday morning on  
a visit with relatives. She will re-  
turn here in about three weeks.

Dr. J. E. Nunn, Elmhurst, Nubia  
don Horace Gough, who have been  
down the Texas Valley on a busi-  
ness and pleasure trip, were in Carls-  
bad Saturday. They are not expect-  
ed to return home before Tuesday  
or Wednesday.

M. B. Ingle and son Ernest, of  
near Hugulett, Armstrong county,  
came in yesterday to attend the  
Farmers' Institute and Short Course.  
Mr. Duke reports crop conditions  
excellent in his locality. A splen-  
did wheat crop was harvested there  
last year. He resides about twenty-  
five miles southeast of Amarillo.

L. H. Delmont and E. O. Zollicoff,  
ret. are among the prominent citi-  
zens from the vicinity of Plainview,  
who are attending the Panhandle  
Farmers' Institute and Short Course  
here this week. They arrived early  
and are taking a deep interest in  
the discussion of the various sub-  
jects that are coming before the in-  
stitute.

E. C. Armstrong spent Wednesday  
in Tampa on business for the Nunn  
Electric Company.

## Workmen's Compensation, Automobile Lia- bility

And Accident Insurance. Also Bonds.  
F. M. LEFFORGE, Phone No. 55.

## TROOP "B" IS AT HOME ARRIVED EARLY TODAY

Special With 115 Panhandle Soldiers  
Reaches Amarillo at  
2:20 a. m.

Troop "B" of Amarillo, and the  
company of infantry from Plainview  
arrived here on the second No. 1  
train from Fort Worth & Denver this  
morning about 2:20. When they  
left home two weeks ago they ex-  
pected to return on Saturday or Sun-  
day but were delayed from the train-  
ing camp a few days earlier  
than they expected.

The companies traveled in four  
sleepers, two in the company. The  
Panhandle aggregation will be trans-  
ferred to the Plainview branch of the  
Santa Fe and their special cars will  
be attached to the south bound train  
this morning.

The troop from Amarillo was  
made up of 17 officers and men,  
and the Plainview company of about  
the same number, making about 115.

soldiers on the special last night.  
The boys pitched their tents in  
the rain at Texas City and it rained  
much of the time while they were  
in camp.

INSTITUTE BRINGS  
TOGETHER OLD FRIENDS

F. R. LeFevre, of Fort City, an  
old time friend of Judge J. W.  
Craddock, and a former resident  
of Stephens county in Central Tex-  
as, is among the farmers from a  
distance who are attending the  
Farmers' Institute here this week.  
Mr. LeFevre met Judge Craddock  
Thursday afternoon for the first  
time in many years, and renewed  
their acquaintance. They had a lit-  
tle reunion of their own which was  
slightly similar to what many old  
timers will enjoy here on Old Set-  
tlers day at the Panhandle State  
fair.

Corporation Court  
About fourteen cases for violation  
of the city sanitary ordinance are  
 slated to come up before Judge  
Brannett, of the corporation court  
on Saturday.
